

LÉA-CFI : INITIAL, DUAL EDUCATION AND LIFE-LONG LEARNING FOR THE CITY OF TOMORROW

LÉA-CFI is a VET center of the Paris Ile-de-France Chamber of Commerce and Industry. LÉA-CFI offers a constantly evolving range of training courses for different audiences, providing them with the skills and the know-how necessary for their professional integration and thus making all talents grow throughout their lives.

6 AREAS OF EXPERTISE

Construction

Energy Performance

Environmental Enhancement

Business Management

Vehicle Maintenance

Public Works

The support of young people and companies is at the heart of LÉA-CFI's approach which offers training programs for all audiences, to promote their future career, particularly through apprenticeship.

To meet the needs of the local area, the school has three campuses in the Paris region (Paris Gambetta, Orly and Jouy-en-Josas). The school is organized around six areas of expertise :

- Construction : electricity, plumbing
- Energy performance : electrical engineering, air conditioning, heating, ventilation, industrial and commercial refrigeration
- Environmental enhancement : landscaping, management of natural environments, sports fields, landscape design, construction site management
- Business management : agribusiness, landscaping
- Vehicle maintenance : automobile, utility and industrial vehicle, and construction equipment maintenance
- Public works : machine driving, site management

LÉA-CFI prepares students for CAP (EQF 3), BAC (EQF 4), BTS (EQF 5), Bachelor/Licence générale, Licence pro (EQF 6) and Mastère (EQF 7) diplomas and offers life-long learning programs in most of the sectors mentioned above.

INTERNATIONAL PROJECTS

- As a hosting organization: we hosted students of our European partners and integrated them in our classes for short-term mobility projects.
- As a sending organization: LÉA-CFI offers apprentices the possibility to experience a mobility project during and after their training. Apprentices have already been benefiting from short-term mobility projects. We are currently developing the long-term ones (more than 4 weeks).
- Blended mobility: LÉA-CFI has experience in organizing online classes with European partners.
